NOTICE TO SUBSCRIBERS

Beginning with the January 1986 reporting period, the Department of Energy has altered the reporting requirements for respondents to this survey. Previously companies submitted data in total barrels. Now they submit these data in thousands of barrels. The API has programmed its report so that continuity with past reports is maintained.

Imported Crude Oil and Petroleum Products

These data are collected by the Office of Oil Imports of the U.S. Department of Energy pursuant to the provisions of SEC.213.23 and 211.66(j), Title 10, of the CFR, as amended, and Public Laws 93-275 and 93-159 as amended. The American Petroleum Institute has undertaken the task of publishing these data as a service to interested data users. No endorsement of the data's accuracy or completeness is intended or implied.
